

Exercise Talk to a Chatbot

Talk to a chatbot!

- form groups of 3-4 people
- Go on Mitsuku's (Nickname „Kuki) Website:
<https://chat.kuki.ai>
- Log in and solve the following exercises →

Stop the time!

How long does it take for you to realize that this isn't human? How did you recognize that this is a computer system?

- What happens when statements are repeated?
- What happens if you phrase the same question differently?
- How can you say that you are talking to a machine?
- Does the chatbot always give logical answers to your questions? How does the chatbot react if it doesn't understand something?
- Do you have to write whole sentences or are single words enough for the chatbot? Does he interpret these individual words correctly?
- **Provide precise examples/quotes from your conversations with the chatbot! What could be done better, so that it does appear more human? Should it even appear more human?**
